PRINCIPLES OF DEMENTIA CARE

Aged 19+ at the beginning of the academic year

Lived in the EU for 3 years

Available fully funded

Dementia affects around 820,000 people in the UK. This figure is likely to rise to one million by 2025 and two million by 2051. It is one of the main causes of disability in later life and with research being desperately underfunded, it costs the UK over £26 billion a year. Understanding dementia and the person-centred care that is required is fundamental to high quality care.

Benefits

Achieve a nationally recognised Level 2 qualification

Improve your understanding of the various forms of dementia and the importance of being respectful at all times

Further your personal and professional development

What you will learn
